

HPM Expands Access to Interventional Pain Management at Boundary Community Hospital

FOR IMMEDIATE RELEASE

Bonnors Ferry, ID - February 26, 2025

HPM is bringing advanced interventional pain management to Boundary Community Hospital, offering patients a comprehensive approach to treating chronic pain. With a focus on non-opioid solutions and minimally invasive procedures, HPM provides relief for those suffering from conditions such as back pain, joint pain, nerve pain, and more.

By working alongside local healthcare teams, HPM ensures that patients receive high-quality, individualized care close to home. The approach prioritizes identifying and addressing the source of pain through proven treatment methods designed to improve mobility and overall quality of life.

HPM's board-certified providers are dedicated to helping patients regain function and return to daily activities with reduced discomfort. The services now available at Boundary Community Hospital include a range of innovative procedures tailored to each patient's needs.

To learn more about HPM's services at Boundary Community Hospital or to schedule an appointment, visit myHPM.com or call 208-329-7504.

About HPM

HPM is a leader in interventional pain management, delivering high-quality care focused on restoring function and improving lives. With a commitment to non-opioid solutions and personalized treatment plans, HPM serves communities nationwide by offering advanced pain relief options close to home.
